A Glimmer of Hope: How Choices Pregnancy Helped Tonya Find New Possibilities

Tonya walked into Choices Pregnancy; her heart weighed down by a decision she never thought she'd have to make. In her early twenties, she was juggling a job, bills, and a relationship with a boyfriend she cared about but didn't see as father material. When she found out she was pregnant, her first thought was, "I can't do this." Her boyfriend's lack of support only made things worse.

She scheduled an appointment at Choices Pregnancy with the intention of confirming her pregnancy and discussing abortion options. She was sure that was the only path for her. But when she sat down with the advocate, something unexpected happened.

The advocate listened to Tonya's fears and concerns without judgment. She gently introduced the idea that Tonya's life and the life of her baby were valuable. She talked about the support available for women in her situation, the possibility of parenting even when it seemed impossible, and the role that faith could play in giving her strength.

Your Prayers and Partnership Rescure Innocent Babies... Thank You!

From Doubt to Hope: Tonya's Journey with Choices Pregnancy (Continued)

Tonya wasn't particularly religious, but something about the advocate's words touched her heart. The advocate spoke about God's love and the incredible gift of life, and for the first time, Tonya felt a glimmer of hope. She wasn't alone in this. There were people who believed in her and were ready to walk this journey with her. By the end of the conversation, Tonya wasn't entirely sure what she would do, but she left Choices Pregnancy with something she hadn't walked in with: encouragement. The advocate had planted a seed of faith in her, a belief that she could be a mother, even in less-than-perfect circumstances. Tonya walked out of the

clinic with more than just pamphlets; she left with a renewed sense of possibility. She knew the road ahead wouldn't be easy, but she was no longer convinced that abortion was her only option. For the first time, she was beginning to believe that she could do this—that she could be a good mother, even if her boyfriend couldn't be the father she wished for. Before she left, she whispered a quiet prayer with the Advocate, asking God for the strength and courage to make the right choice, whatever that might be. Deep down, she felt a shift in her heart, a turning point she hadn't expected. Choices Pregnancy had given her the support she needed to consider life—both hers and the tiny one growing inside her.

"For the first time, Tonya felt a glimmer of hope. She wasn't alone in this. There were people who believed in her and were ready to walk this journey with her."

Celebrate with Us: Grand Opening and Ribbon Cutting of Our New Gainesville Office!

Dear Supporters,

We are excited to invite you to the grand opening of our new Gainesville office with a ribbon cutting ceremony on September 27th at 11:30 AM. This milestone is a testament to your incredible support and dedication. Following the ceremony, join us for an open house from 12:00 PM to 3:00 PM, where you can tour our new facility and see firsthand the impact of your generosity. Your unwavering commitment to Choices Pregnancy Care Center continues to make a profound difference in our mission of saving souls and saving babies. We look forward to celebrating this special occasion with you!

Please join us in prayer for . . .

Clients facing unplanned pregnancies: that they'll choose life

Wisdom for new moms and dads in our parenting program

Healing and salvation for post- abortive men and women

Protection and safety for all Pregnancy Resource Centers

A message from the Director

So much to be grateful for — especially you

Greetings Choices Family!

It has been a very busy month for our ministry. We continue to settle into our beautiful new location at 225 Forrest Ave. The staff loves all the

open space, and our patients love the stylish new baby boutique. The official grand opening ribbon cutting is September 27th. We are very pleased to feature our Gainesville mayor Sam Couvillon as the keynote speaker.

We also just received an elite level Ultrasound unit. This allows us to see babies in the mother's womb even earlier. The ultrasound has a wall-mounted 4K OLED monitor and gives our patients the best detail possible when viewing their baby. This new technology comes at a vital time, because women are coming to us increasingly early in their term.

Our annual 5K is also right around the corner on October 19th. We would love to thank all of our volunteers and sponsors who made this year possible! The race is always very exciting and we look forward to seeing everyone there.

Lee Koz, M.Div
